INTEREST

ALESSANDRO METAXAS

I'm currently a working User Experience Designer, a multi-disciplinary creative with a background in Industrial design; I have branched out to learn more about graphic, visual branding, concept art, motion as well as refining my abilities in user experience and Interface Design.

EXPERIENCE

2022 - Present

UX / UI Designer - PLAYCAP Software | Freelance

- Designing UI/UX for digital product, constructing wire-frames, mock ups and synthesising research data and translating it into the design.
- Creating graphics and Icons for better visual clarity and depth.
- Providing concept and Promotional art, designing characters environments and other assets.
- Assisting Software Developer in developing digital product and ensuring it meets the technical standards.

RESULTS| CURRENTLY DEVELOPING ASSETS AND STRUCTURE FOR VIDEO GAME.

2021

Web Designer - LAURA ANNE | Freelance

- Designed and constructed the website for the client to present themselves to potential employers.
- Liaised with client to ensure she was happy with how the site progressed and the steps to get there.

RESULTS| SHIPPED 1 PORTFOLIO WEBSITE - NOW EMPLOYED.

2019

Product Designer - S.T DUPONT | Internship

- Approval of concepts by submitting rough drafts to artistic director/client and getting their feedback on what can be improved.
- Developed design from initial rough concept to final 3D model followed by discussions with the engineering and manufacturing team.
- Consulted with design director to identify design requirements for each project

RESULTS| SHIPPED 3 PRODUCTS – DOCUMENTATION – CREATE NARRATIVES.

2018 - 2019

Product Designer - S.T DUPONT | Internship

- Collaborated with engineers on projects in regard to design and manufacturing process in regards to cost and time.
- Presented design concepts and 3D models to director and discussed the feasibility and cost.

RESULTS| SHIPPED 4 PRODUCTS - CONCEPTUALISATION TO PRODUCTION.

2016 - 2018

Product Designer - Monash University

- Collaborated with other designers, worked as a team, delegated task to meet deadlines and finish work accordingly.
- Presented design concepts, 3D models, sketches, wire frames and so on to design lead, had workshops to refine concept before final design shipped for implementation/fabrication.

RESULTS| FINISHED MULTIPLE PROJECTS, CONCEPTUALISATION TO PRODUCTION.
