

Alessandro Metaxas

Product Designer

0419100063 | ↗ aometdesign@gmail.com | Melbourne, Victoria

Professional Summary

Product Designer with 10+ years of experience designing B2B SaaS and digital products from discovery through launch. I specialise in creating intuitive, visually polished user experiences through user research, interaction design and scalable design systems, collaborating closely with Product Managers and Engineers to deliver high-quality digital products. Experienced designing complex, data-rich interfaces, leveraging AI-assisted workflows and translating customer insights into intuitive design solutions that balance usability, business goals and technical feasibility.

Skills

Core Design	Visual Design	Systems	Collaboration
- Product Design - User Research & Usability Testing - Information Architecture - Customer Journey Mapping - Wireframing - High-Fidelity UI Design - Interactive Prototyping	- Typography - Layout - Interaction Design - Accessibility (WCAG 2.2 AA)	- Design Systems - Component Libraries - Design Tokens - Figma Auto Layout	- Stakeholder Management - Discovery Workshops - Front-End Collaboration - Agile & Scrum - Data-informed Design - AI-assisted Design

Experience

➔ Product Designer

Phriendly Phishing | Full-Time | B2B SaaS Platform

November 2022 - July 2026

Melbourne VIC | HYBRID

Worked as the lead Product Designer within a cross-functional team, partnering with Product, Engineering and stakeholders to design user-centred solutions that balanced customer needs with business objectives.

- Led end-to-end UX/UI design from discovery workshops and user research through wireframing, prototyping, high-fidelity interface design and implementation.
- Designed the customer-facing experience for Deckhand, an AI-powered assistant, creating conversational workflows, interaction patterns and natural language experiences that enabled users to analyse complex product information and surface contextual insights.
- Built and evolved scalable design systems, reusable components and UI patterns that improved consistency, streamlined developer handoff and supported rapid product iteration.
- Conducted user research, usability testing and design QA, using qualitative and quantitative customer feedback to improve usability and guide product decisions.

- Collaborated closely with Product Managers and Front-End Engineers to rapidly prototype, iterate and deliver production-ready digital experiences, ensuring design quality throughout implementation.
- Conducted user research, usability testing and design QA, using qualitative and quantitative customer feedback to improve usability and guide product decisions.
- Facilitated discovery workshops with stakeholders to define requirements, validate concepts and align design solutions with business objectives.
- Leveraged AI-assisted design and research tools to accelerate ideation, documentation and design exploration.

➡ UX Designer

March 2022 - November 2022

PLAYCAP | Part-Time | Video Game & Entertainment

Melbourne VIC | (REMOTE)

Worked as the lead UX Designer within a cross-functional team, collaborating with Product, Engineering and stakeholders to create intuitive, user-centred experiences across digital products.

- Led end-to-end UX/UI design from discovery, user research and ideation through wireframing, prototyping, visual design, developer collaboration and implementation.
- Designed high-fidelity interfaces, reusable Figma component libraries and interactive prototypes, collaborating closely with developers to rapidly iterate on user feedback and improve the overall product experience.

➡ Product Designer

June 2020 - January 2023

AOM Design | Self-employed | Design Freelance

Melbourne VIC | (ON-SITE)

Worked independently with clients across a range of industries, leading projects from initial consultation through to delivery.

- Managed multiple client projects simultaneously, balancing priorities, timelines and project scope to deliver high-quality outcomes.
- Collaborated with clients to understand business goals, conduct discovery, rapidly iterate on concepts and deliver polished digital experiences that balanced usability with strong visual design.

➡ Product Designer

March 2019 – May 2019

ST Dupont | Internship | Luxury Goods

Paris France | (ON-SITE)

Worked within multidisciplinary product development teams, collaborating with industrial designers, engineers and manufacturing specialists to develop luxury consumer products from concept through production.

- Developed luxury product concepts from initial ideation through 3D modelling, collaborating with engineering and manufacturing teams to ensure design feasibility.
- Presented concepts to design leadership, incorporating feedback to refine products prior to production.

➡ Product Designer

December 2018 – February 2019

L'Epée 1839 | Internship | Luxury Goods

Switzerland, Delemont | (ON-SITE)

Worked within multidisciplinary product development teams, collaborating with industrial designers, engineers and manufacturing specialists to develop luxury consumer products from concept through production.

- Presented concepts to design leadership, incorporating feedback to refine products prior to production.

➡ **Product Designer**

March 2016 – November 2018

Monash University | Full-Time | Education

Melbourne VIC | (ON-SITE)

- Worked across multidisciplinary design projects, conducting user research, developing concepts and presenting solutions to design leads and clients.
- Applied user-centred design principles to create digital and physical product experiences from discovery through production.
