

Alessandro Metaxas

Product Designer

0419100063 | aometdesign@gmail.com | Melbourne, Victoria

Professional Summary

Product Designer with 10+ years of experience designing digital products, with a strong focus on visual design, design systems and scalable UI. Experienced in building reusable components, translating visual principles into practical interfaces, and collaborating with Product and Engineering to deliver consistent, accessible experiences. Increasingly incorporating AI-assisted tools into exploration, prototyping and design workflows, alongside practical front-end experience with HTML, CSS and JavaScript.

My portfolio can be found here: <https://aombuild.github.io/>

Experience

Product Designer <i>Phriendly Phishing Full-Time B2B SaaS Platform</i>	November 2022 - July 2026 <i>Melbourne VIC HYBRID</i>
Worked as the lead Product Designer within a cross-functional team, partnering with Product, Engineering and stakeholders to design user-centred solutions that balanced customer needs with business objectives. - Led end-to-end UX/UI design from discovery and user research through ideation, wireframing, prototyping, high-fidelity interface design, developer collaboration and implementation. - Presented high-fidelity interface concepts and interaction designs to stakeholders, facilitating discussions that aligned user needs with business objectives. - Collaborated closely with Product, Engineering and stakeholders to define product priorities, align design decisions with business goals and shape product direction for web and mobile experiences. - Conducted user research, usability testing and analysed customer feedback to identify pain points, validate	

hypotheses and inform product decisions.

- Applied typography, spacing and visual hierarchy principles to create consistent, accessible interfaces aligned with the product design system.

- **UX Designer**

PLAYCAP | Part-Time | Video Game & Entertainment

March 2022 - November 2022

Melbourne VIC | (REMOTE)

Worked as the lead UX Designer within a cross-functional team, collaborating with Product, Engineering and stakeholders to create intuitive, user-centred experiences across digital products.

- Led end-to-end UX/UI design from discovery, user research and ideation through wireframing, prototyping, visual design, developer collaboration and implementation.
- Lead workshops to outline current issues relating to the experience and provide solutions to rectify them.

- **Product Designer**

AOM Design| Self-employed | Design Freelance

June 2020 - January 2023

Melbourne VIC | (ON-SITE)

Worked independently with clients across a range of industries, leading projects from initial consultation through to delivery.

- Ran independent design engagements across multiple industries, owning the full client relationship from initial discovery through to final delivery.
- Worked directly with clients to translate ambiguous business and user requirements into practical, well-scoped digital design solutions.
