# Alessandro Metaxas | *Product (UX/UI) Designer*

0419100063 | aometdesign@gmail.com | Melbourne, Victoria

## Professional Summary

Australian citizen and Product Designer with 6+ years of experience across UX/UI design for digital products and services. Experienced in autonomously delivering end-to-end B2B SaaS design, stakeholder collaboration and project delivery, from research and problem framing through to prototyping, testing and implementation. Skilled in facilitating workshops, managing competing requirements and mentoring designers while balancing user needs, business objectives and technical constraints.

***My portfolio can be found here: https://aombuild.github.io/***

## Skills

**Product Design & Research**

- End-to-End Product Design
- User Research & Usability Testing
- Interaction Design & Prototyping
- Wireframing & Low-Fidelity Prototyping
- Problem Framing & Product Thinking
- Information Architecture
- Customer Journey Mapping

**Design Systems**

- Component Libraries
- Documentation & Specifications
- Content Design & Product Language
- Accessibility (WCAG 2.2 AA)
- Design QA & Implementation

**Collaboration & Delivery**

- Cross-Functional Collaboration
- Stakeholder Management & Workshop Facilitation
- Agile Delivery & Sprint Planning
- Workload Management & Task Delegation
- Engineering Collaboration
- HTML, CSS & JavaScript

---

## Experience

### Product Designer — November 2022 - July 2026

*Phriendly Phishing | Full-Time | B2B SaaS Platform* — *Melbourne VIC | HYBRID*

Led design across three B2B SaaS products, coordinating workload and delegating tasks between two designers while guiding design decisions and maintaining consistency across product experiences.

- Owned end-to-end design for B2B SaaS web applications, independently translating ambiguous problems and user needs into design approaches, from discovery and research through prototyping, development, release and design QA.
- Conducted evaluative research and usability testing to validate concepts, test hypotheses and resolve design questions before and during development.
- Collaborated with Product Managers and Engineers in an Agile team to refine requirements, assess technical feasibility, prioritise design work and deliver solutions through iterative development.
- Worked with globally distributed teams across time zones, coordinating with international stakeholders

through clear documentation, async communication and design hand-offs.
- Designed low/high-fidelity interfaces and Figma prototypes, documenting workflows, interactions, component states and edge cases for development.
- Developed and maintained design systems, component libraries and product language, improving consistency and documenting reusable patterns.
- Facilitated stakeholder workshops with Product, Engineering and business stakeholders to clarify ambiguous requirements, resolve competing needs and align on user-centred design solutions.
- Managed and coached another designer, delegating work and providing feedback to support design quality and capability development.

### UX Designer
**March 2022 - November 2022**

*PLAYCAP | Part-Time | Video Game & Entertainment*
*Melbourne VIC | (REMOTE)*

Worked as the lead UX Designer within a cross-functional team, collaborating with Product, Engineering and stakeholders to create intuitive, user-centred experiences across digital products.

- Led end-to-end UX/UI design from discovery, research and workshops through ideation, prototyping, visual design and developer implementation, collaborating with Product, Engineering and stakeholders.
- Led workshops to outline current issues relating to the experience and provide solutions to rectify them.

### Product Designer
**June 2020 - January 2023**

*AOM Design| Self-employed | Design Freelance*
*Melbourne VIC | (ON-SITE)*

Worked independently with clients across a range of industries, leading projects from initial consultation through to delivery.

- Worked independently with clients across multiple industries, leading projects from initial consultation and discovery through to design delivery.
- Managed client relationships, translating ambiguous business and user requirements into practical digital experiences and design solutions.

## Tools

**Design & Prototyping**
- Figma
- FigJam
- Adobe Creative Suite
- Miro

**Development Framework**
- HTML
- CSS
- JavaScript
- GitHub
- AI (Chat GPT, Figma Make, Claude)

**Product & Collaboration**
- Jira
- Confluence
- Microsoft 365
- Microsoft Teams

## Education

- Monash University | **Bachelor of Industrial Design**
